REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The nailing tool comprised of a connecting sleeve for mounting and rotating a magazine, which is comprised of positioning balls which are held onto the connecting sleeve by an elastic plate and which allows the connecting sleeve and the magazine to rotate within a mounting seat that is part of the main body distinguishes itself over the prior art of Lin, which does not disclose the use of an elastic plate to retain the positioning balls and does not disclose a mounting seat that is part of the main body, but is instead mounted to the main body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
